RECEIVED
JAN 03 2008
DEPT. OF WATER RESOURCES
SOUTHERN REGION

2. Source: UNNAMED STREAM Tributary to: MUD CREEK

3. Location of Point of Diversion:

#1 UNNAMED STREAM NW1/4SW1/4 Sec. 26, Twp 09S, Rge 14E, B.M.
TWIN FALLS County

4. Water will be used for the following purposes:

Purpose	From To	RATE OF DIVERSION	ANNUAL VOLUME
WILDLIFE STORAGE	01/01 to 12/31		4.2 AF
WILDLIFE	04/01 to 10/31	0.40 CFS	
5. Total quantity to be appropriated is:		0.40 CFS	4.2 AF

6. Proposed diverting works:

POINT OF DIVERSION #1

a. Type and size of devices used to divert water from the source: PIPE FROM STREAM TO OPEN DISCHARGE INTO POND

b. Height of storage dam _____ feet;
Active reservoir capacity _____ acre-feet;
Total reservoir capacity _____ acre-feet;

c. Proposed well diameter is _____ inches;
Proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85F being sought?

e. If well is already drilled, when? _____;
Drilling Firm _____;
Drilling Permit No. _____.

9a. Who owns the property at the point of diversion? If other than applicant, describe the arrangement enabling the applicant to make this filing.

APPLICANT

9b. Who owns the land to be irrigated or place of use? If other than applicant, describe the arrangement enabling the applicant to make this filing.

APPLICANT

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

10. Remarks:

Application filed for an offstream (existing) pond that impounds approximately 4.15 acre-feet of water, with a total surface area of 1.5 acres. Of the 1.5 acres it is estimated that 0.4 acres is about 3.5 feet deep, and the remaining 1.1 acres is about 2.5 feet deep. The 0.40 cfs represents the maximum amount of water that could potentially be diverted to the pond via water right 47-2370 for irrigation, wildlife, and stockwater use (see companion transfer application). The evaporative losses associated with this particular pond will be mitigated by converting a 1.5 acre portion of irrigation right 47-2370 to wildlife use associated with the pond. The initial filling of the pond, approximately 4.15 acre-feet of water, will be accomplished by drying up 1.4 acres of irrigation right 47-2370 during the 2008 irrigation season. The pond will remain full in the future with the potential to run up to 0.36 cfs through the pond via the remaining irrigation portion of right 47-2370 (see companion transfer application). If the pond ever needs to be emptied and refilled in the future (perhaps for some sort of emergency) then 1.4 acres will be identified for a one year dry up to allow for refilling the pond. The 1.4 acres is based on historical irrigation of pasture (see attached letter) in the Twin Falls area (Average Irrigation Requirement = 2.97 acre-feet per acre per 1983 Allen & Brockway Report).

11. Map of proposed point of diversion and place of use attached? ☒

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
