RE: Application for Transfer 73841 Water Right 63-32329

Dear Applicant:

The Department of Water Resources (Department) is currently processing the above referenced transfer application. The previous water right owners, Poen Land Trust, completed the transfer application, which has since been assigned to you via a notarized statement received May 26, 2008. This application states that the property to be effected by the changes proposed in the transfer are subject to liens, deeds or trusts, mortgages, or contracts. Since ownership of the property has changed since the transfer application was filed, the statement may or may not be applicable. In order to continue with processing, the Department must be informed of this information. If the property is still subject to liens, deeds of trust, mortgages, or contracts you must provide a notarized statement from the holder(s) of the liens, deeds of trust, mortgages, or contracts agreeing to the changes. If the property is no longer subject to liens, deeds of trust, mortgages, or contracts, please submit a statement to that effect to allow for further processing of this application.

Please submit a notarized statement from the lien, deed of trust, mortgage or contract holder(s), if the property is subject to such, agreeing with the changes proposed in the above referenced transfer application. Otherwise, please submit a statement to the Department that the property is not subject to liens, deeds of trust, mortgages, or contracts. The requested information or a request for more time to provide the information must be received within thirty (30) days. The application will be voided without a timely written reply.

Department rules, forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at (208) 334-2190 if you have any questions or need additional information. Thank you for your attention in this matter. I look forward to your reply.

Sincerely,

Angela M. Grimm
Water Resource Agent
