MEMO

TO: File
FROM: Jim Johnson J.J.
RE: Proof of Owership

This application for transfer was submitted upon the advice of Ernie Carlsen in Eastern Region, that the applicant's water rights reflect his actual irrigation practice.

The applicant has installed a center pivot sprinkler system on the NE 1/4 of Section 14 and is using the entire 1.91 cfs licensed in Right No. 17-2036 on this land. The 30 acres in the SE 1/4 SE 1/4 of section 14 does not receive any water from this right.

Normal Department policy has been not to require proof of ownership when there is no change in place of use, however, this application for transfer is some what unique in that its purpose is to reduce the number of acres irrigated.

A request for proof of ownership has been made on May 23, 1979. As of date none has been received. I have made several unsuccessful attempts to contact the applicant by phone.

I discussed this matter today with Ernie Carlsen - who indicated that he had worked closely with the applicant and felt that he owned the land described in the transfer. In addition the applicant has filed permit No. 17-7066 which covers lands in SE 1/4 SE 1/4 Section 14.

It is his recommendation, and mine, that the transfer application be approved without requiring the applicant to submit proof of ownership.

Re: Transfer of Water Right No. 17-2036

I recently received your application for transfer of a water right (17-2036). I have reviewed the application and it appears to be in proper form.

However, before the application can be approved, it will be necessary for you to send us a copy of the warranty deed for the lands involved in the transfer. It is departmental policy that we request proof of ownership of the land that a water right is being removed from.

Thank you for your assistance in this matter.

Dear Mr. Neal:

Enclosed please find the application for amendment for Permit 17-7066 and the application for transfer of License 17-2306, which you have requested. Please note that the application for transfer condenses the acreage covered under the older well to the north 160 acres in Section 14, while the amendment allows Permit 17-7066 to irrigate the new land you recently purchased just south of your home.

Please review both documents to insure they are consistent with your intentions. Prior to returning them to our office, you need to sign the application for transfer in the presence of a notary public and sign the amendment where indicated. The filing fee for both documents will be \$55.00 - \$20.00 for the amendment and \$35.00 for the application for transfer. Should you have any questions, feel free to contact me.

Dear Mr. Neal:

We wish to acknowledge receipt of your Application for Permit, however the same was not filled out, therefore we have filled out same according to the map enclosed and we hope it is correct as to land description.

We will request that you answer question (8) - Estimated cost of works. You overlooked signing the application, therefore you should sign same on page three of the application, marked "Applicant".

We are returning your check to the amount of \$5.00 and will request that you substitute a check for \$6.50, based upon the rate of \$5.00 for the first second foot and twenty-five cents per each additional second foot or fraction thereof.

We took the liberty of making out your application for the amount of one inch per acre, or 320 Miners Inches, however, if you wish to cut down the same and file for a lesser amount, please state, and your check would also be cut down, based upon the rate stated above.

Dear Mr. Neal:

In reply to your letter of September 7th, we enclose an application for Permit to appropriate the subterranean waters of the State of Idaho, together with a pamphlet, which gives regulations and instructions, and, sketch maps in duplicate, which are required to accompany the application. The map is to be drawn by "cross hatch" or color showing the lands to be irrigated by 40-acre sub-divisions, section number, township, range, and, clearly show the location of the point of diversion (well).

After this application is approved and signed by the proper State Officials, it will be returned to you as a "Use Permit".

To complete the water right, two proofs are required:- First, completion of works and second application to beneficial use, which are made at the same time. Under Question 10- the maximum time allowed for this is 5 years.

Re: Permit No. G- 27122

August 31, 1962

George G. Neal
S. one, Idaho

Dear Mr. Neal:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-27122 are due not later than Nov. 26, 1962

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36,

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-27122

Mr. George G. Neal,
Stone, Idaho.

Dear Mr. Neal:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27122. The proofs are to be made at 1:00 o'clock P.M., on the 12th day of November, 1962, before E. L. Scott, 26 Court Street, Malad City, Idaho, Notary Public.

As of this date we have mailed the Notice to the Idaho Enterprise
Malad City, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G 27122, dated November 26, 1957. Date of priority: *Oct. 24* ~~Nov. 26~~, 1957

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean or underground water supply. Point of diversion:

Northeast Corner of NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 14, Twp. 16 S., R. 32 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Work: Deep well cased with pump and gas motor; water conveyed to place of use by means of irrigation ditches capable of conveying 10 c.f.s
Depth of well: 310 feet; 16 inch casing; 50 feet to static level of water;
Forty foot draw-down or pumping level of 90 feet. Pump discharge 111 inches measured by weir box.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and is used upon the East half of Section 14, Twp. 16 S. R. 32 E.B.M, as follows: 40 acres in each quarter section of the NE $\frac{1}{4}$ of said Sec. 14.

All land is cultivated land. I have been able to plant hay, grain, and have had considerable pasture as a result

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Henry Caggle, of Snowville, Utah

27122

Dear Mr. Neal:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho Enterprise, all submitted in proof of completion of works and beneficial use on Permit No. G-27122.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.
