RE: Water Right Ownership

To Whom It May Concern:

The Department has been reviewing a change in ownership for a claim to a water right that appears to be appurtenant to your property. Tax lot data has you listed as the current owner of a portion of the property that appears to have right 11-7611 appurtenant to it and the Department would like to update the ownership for that right.

For your convenience I have included a report of the water right in question. Please review the water right report and notice that the water right has a specified point of diversion, nature of use and place of use. If you own any of the property that water right 11-7611 encompasses, and plan on changing any of these, including adding a new point of diversion, then an Application for Transfer is required.

If you do not plan to change any items on the water right and you own a portion of the property that the water right encompasses, a split of the water right will be required which may be accomplished by filing a Notice of Change in Water Right Ownership Form along with the proper documentation and fee.

If you no longer own the property in question, please disregard this letter. Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any of the Departments offices, or at the our website at: www.idwr.idaho.gov.

If you have any questions you can contact me at 208-287-4944.

Sincerely,

Cherie Padilla, Water Resource Agent
Water Allocation Bureau
