RE: App For Transfer 73663, Kevin/Rhonda Carter & Joseph/Sandra Nelson

Dear Mr. Holloway;

This letter is being written at the request of Kevin Carter as part of his obligation to obtain permission from the lienholder on this property before IDWR can approve the proposed water transfer. This particular transfer does not actually make any changes to the existing water system or to the ownership of the land itself. What it does do is to change the ownership of the water right from the parents of Mr. Nelson to him and his wife and to Mr. Carter and his wife. It also clarifies the legal description of the property involved, as this was in error on the original water right. The transfer also removes the industrial use for a potato cellar that was removed sometime after 1987.

We require written lienholder permission before approving any water transfer, regardless of the changes being made. This just protects your interest in the property. If you have questions, feel free to contact me.

Regards,

James E. Stanton
Sr. Water Resource Agent
