RE: App For Transfer 73663

Dear Mr. Nelson;

This application is close to being approved, but there is still one thing holding up the process. We require written permission for this transfer from the lienholder on the Carter property. I have requested this from him several times, and he keeps promising to provide it, but we still have not received the required lienholder letter. I am therefore asking for your assistance in obtaining this. I believe that the lienholder is a local entity, so it should be easy to obtain the letter if he will just ask them for it. If the required letter is not received by March 3, I will be forced to return the application to you without further processing. The incorrect record will remain on the books, and you will have to file an ownership change to put your portion of the water right into your name.

Regards,

James E. Stanton
Sr. Water Resource Agent
