Re: Water Right Permit Application: Mark and Christina Bolduc.

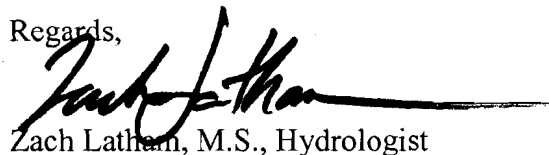

Dear Mr. Stanton,

At your recommendation (March 19th 2008 letter), I have prepared a water right permit application in the name of Mark and Christina Bolduc. As you are aware, the Bolducs own surface irrigation water right 36-16019 appurtenant to 10.74 acres in T.07S R.13E SEC. 36 SW ¼ NE ¼, Gooding County, ID. The Bolduc's recently sold 2.26 acres of water right 36-16019, reducing the acreage from 13.0, to 10.74, and a change of ownership application on behalf of the new owner(s) should be on file with IDWR.

The Bolducs seek to permit heating and cooling non-consumptive year round beneficial uses in an existing residence. Although the application for permit lists 0.02 cfs and 11.6 afa to be designated for both heating and cooling uses, the total annual volume authorized to be diverted for all uses under the proposed permit and under water right 36-16019 will not be increased or changed from the existing volume after this permit is approved.

Also attached is a check from Brockway Engineering for \$100.00 to cover the cost of the permit application. Please copy our office on all correspondence regarding this water right transfer application. Don't hesitate to call our office should you have questions or comments, thanks for your time and have a great day.

Regards,

Zach Latham, M.S., Hydrologist
