Mr. Gibby,

We recently received your application for transfer to change the place of use for water right 45-13962. Your application was sent to the state office in Boise and was staffed to the regional office in Twin Falls to be processed. In its current state, your application can not be processed. However, we understand the need for this transfer as we are concurrently working on a transfer for the Stokers to move water into this location. The regional manager and I decided it would be best if you could come in and meet with me to clear up the discrepancies that are holding up your transfer. I will also need you to provide a legal document that indicates the water right can be moved from its current place of use by the current owners of that parcel. With this document and a meeting at my office, we should be able to continue processing your application. Please give me a call to set up an appointment or with any questions you might have.

Thank you,

Jeffrey S. Cooper
Water Resource Agent
