Re: Amended Pond Permit and Transfer Applications Regarding Water Rights 37-297D and 37-20359 in the names of Jean-Pierre and Connie Chesnel.

Dear Corey:

Enclosed is an amended permit showing the two sources of water as Indian Creek, and the Big Wood River, as well as a change from a 'storage' purpose, to an 'aesthetic storage' purpose. I am authorized to sign the permit under our limited power of attorney document. I have also included page one of the amended transfer showing the new nature of use for water rights 37-20359 and 37-297D as 'aesthetic' as you have requested. A brief outline behind the 0.5 cfs diversion rate for aesthetic storage is also attached. According to a meeting Chuck Jr. had with IDWR personnel in Boise on 5/7/08, it is our understanding that you will be able to continue to finish processing the Chesnel's transfer and permit applications once you receive these documents.

Please copy our office on all correspondence regarding the attached pond permit and water right transfer. Thank you for your assistance and if you have questions or comments, please don't hesitate to call.
