MEMORANDUM

TO: File 95-08818

FROM: Sharla

DATE: June 21, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 95-08818 are based on a phone conversation on this date with Jerry Welch of the Beauty Bay Homeowners Assn. He told me that the 1½ hp pump has to lift water approximately 120 feet from the lake.

The proof of beneficial use statement indicated a rate of diversion of 0.04 cfs. Mr. Welch confirmed that 0.04 is what the pump is rated at, and is an accurate description of the capacity of the diversion system. The rate of diversion will be licensed for the 0.04 cfs. There is another permit, No. 95-08884, for the remaining homes which are connected to this system. Mr. Welch informed me that Northern Region personnel had contacted him a few days ago and told him there would be no further examinations and that they would be forwarding the paperwork to this office for license review as well. A condition will need to be placed on the license issued for that permit, limiting the rate of diversion under both rights to 0.04 cfs.

H. RECOMMENDATIONS

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3/15 - 11/15	0.04 cfs	6.0 afa
Domestic	1/1 - 12/31	0.04 cfs	2.4 afa

Finally, conditions were placed on the permit limiting the domestic use to 13,000 gpd/dwelling and authorizing irrigation of ½ acre within each lot with a domestic dwelling. The irrigation use component is for the lots (each approximately ½ acre). Licensing conditions will be appropriately modified to separate the irrigation of any lawn, garden, etc. from the domestic component.
