CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

DATE: October 17, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 95-08786 are based on the following:

H. RECOMMENDATIONS

1. Recommended Amounts

Domestic	1/1 - 12/31	0.04 cfs	1.2 af
----------	-------------	----------	--------

The examiner recommends a volume of 0.6 af (assumably based on in-house use only). The photographs do not clearly show whether a lawn or garden is irrigated, however, the original application for permit stated that domestic use included lawn. The volume has been adjusted to include outside use.

Mr. Wixom was in my office today regarding the lapsed notice he received. He was asking about the Lapse Notice. He stated that he mailed the proof of beneficial use form with the payment on December 30, 1994 to meet the December 31 deadline.

I checked our records and found that we mailed the beneficial use form to you on January 4, 1995. We issued a receipt on January 3, 1995, which means that the form had to be in the mail before the first of the year. Since we were closed on December 31, I assume that the check and the form were in our empty office waiting for us to do the processing. I feel that we should re-instate his permit with no advance in the date of priority.
