John:

I'm forwarding this on to our Blackfoot FSA Office as they take care of that area and may have some institutional knowledge / memory on this matter. The Farm Loan Manager is out this week, so it may be next week before we can get back on Monday. I'm also gone after Wednesday for the holiday week. I will do my best before then (Blackfoot FSA office # is 208-785-2090).

Curtis:

The water situation below concerns an old inventory property in Arco. Mr. Beller thinks this may be the Fulmer property. He bought this property from Kent Stokes and needs us to write to IDWR (Dave Carlson) stating that we don't have a lien on the property any more. We need to research this. I'm sure the Brad may know about this property and can help on this next Monday.
