

MEMORANDUM

Date: July 03, 2008
To: Transfer 74846
From: dcarlson
Re: transfer evaluation

This transfer proposes to combined the place of use for these 4 ground water rights into a pivot. They use the same well currently. The pivot currently exists and was used in 2007. The Wmis gps point for this well shows it across the QQ line in another quarter. I made the changes to the pod description based on our gps data. Applicant will be notified at the time of approval.

Authority to File:

Applicant has submitted warranty deed for the purchase of this ground from the owners of record as far as the SRBA decree. Lienholder gave approval.

Water Right Validity:

The place of use was irrigated in 2007 with a pivot. Forfeiture is not an issue.

Injury to Other Water Rights:

No well change. Watermater comments will be requested.

No hydrologic changes by this transfer, processed as a no advertised transfer.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
