RE: Application for Permit #63-12105

Dear Applicant:

Your application for permit to appropriate ground water for commercial purposes was received on 3/4/94. Your application cannot be processed at this time.

Due to continued drought and to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/1992 concerning water right applications proposing new consumptive uses of public water. Withdrawals of ground water at rates of flow greater than 0.04 cfs (18 gallons per minute) are considered consumptive and not within the public interest unless the applicant can provide evidence to the contrary.

The moratorium has been lifted in some areas of the state, but remains in place for the Boise River Basin. This office will hold your application pending future decisions on the moratorium, and will inform you of any changes. Delays related to department decisions do not affect the date of priority or seniority of your application.

If you have any questions, please feel free to contact this office at 334-2190.

Sincerely,

A handwritten signature in cursive script that reads 'Cindy Hodges'.

Cindy Hodges
Sr. Water Resource Agent
