H. REMARKS AND OVERLAP REVIEW ANALYSIS

I recommend that ~~the~~ Troy Hoffman Water Corporation's request for removal of the measuring be approved. There is not a section between the storage tank and the pump where there is over 6" of undisturbed flow because of the valves and couplers. This filing was made on a system that was started in 1956 ~~and~~ and expansion of the ~~system~~ use has continued until now.

I recommend that this be approved to allow 1.13 cfs ~~for~~ when combined with 95-2117.
