WATER RIGHT LICENSE

License of Water Right No. 95-7165 Priority November 30, 1971 Amount 0.12 cfs

THIS IS TO CERTIFY, that CONKLING PARK WATER ASSN., INC.
of Moscow, Idaho, has complied with the terms and conditions of Permit
No. 95-7165 issued pursuant to Application for Permit dated November 30, 1971,
and has submitted proof to the Department of Water Resources on December 13, 1978,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.12 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u> (83 homes)	from <u>January 1</u> to <u>December 31</u>	at <u>0.12</u> cfs and	<u>86.7 acre feet</u>
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.12 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
86.7 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19, Twp. 47N.,

(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 95-7165.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before January 1,, 19 77.

That he has heretofore performed the following work described under said permit:

Drilled a well, installed 20,000 gallons of storage, and installed service
distribution lines to 97 Association members.

Costing \$ 16,023.00

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: Extreme winter weather precludes work during that period
of the year except in emergency cases, and the area has
a high incidence of fair weather recreation use. In order to cause as little disruption
as possible in the area, necessary excavation work has been done prior to and
following the heavy traffic periods, except winter. The shortness of the work periods
result in our inability to complete several service lines by the completion date
of January 1, 1977.

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to January 1,, 19 79.

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use:
Water from the well in question is used to supply household and fire suppression service to the majority of the living units (both summer and year-round) in the lake-
shore community of Conkling Park at the southern end of Coeur d'Alene lake. All units
being served are within 1/2 mile radius of the well site location. Currently there are
108 memberships in the Association, 79 of which are using water from the system. The remainder of the memberships are assigned to undeveloped lots, and as soon as they are
built upon, service will be supplied.

9. Irrigation uses: describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision:

[illegible]

Total number of acres irrigated

10. Remarks: Many of the homes in the area supplied with water by this system are for seasonal and recreation use. Only 4 or 5 have year-round tenants, thus, there is a wide variation of consumption month to month. The system was put into service in late 1972 with 5 units on the service. As the distribution lines were completed, more units were added. On a peak demand day, such as the 4th of July, we estimate consumption at approximately 3,700 cu. ft.. During the mid-winter period we estimate average daily consumption at approximately 200 cu. ft..

The above information is a true statement of the extent to which the above numbered permit has been developed.
