The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

One deep water supply well has been drilled, constructed,
developed and equipped. The well is currently connected to
the subdivision's distribution system and serving residents.
A pump/control house has been constructed.
Costing \$ ~\$250K

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

A slow-down in the real estate market has slowed the pace
of development such that all homes are not yet
constructed (all lots are sold) and only one of three
proposed wells is completed.

Permit holder(s) request an extension to May 1st 2013, 20 13.
