RE: Water Right (63-32057) Transfer 71815 Extension

To Whom It May Concern:

I am writing to seek an extension on transfer 71815. With the current lag in the economy and the resulting impact on the real estate market, we are presently unable to free the necessary funds to make the required changes to the property. We will move forward as soon as we are able. Since we have been timely in the development of this property, we would appreciate your help in this request.

Thank you for your understanding.

Sincerely,

Rick Roberts
