Salmon ID. 83467

Idaho State Department of Water Resources

I am writing in regards to a protest water District 74-C (Bohannon and Wimpy Creeks) applied for on 74-15838, 74-15839, 74-15841, and 74-15846.

The Water District 74-C has no objections with the Idaho Fish and Game for applying for water rights for the fish screens on this creek as long as these water rights they are applying for does not interfere with or take priority over the existing water rights for Decreed and Beneficial use rights, and the Fish and Game recognizes and allows the water master for water District 74C to regulate the creeks water and determine when there is adequate water for the fish screens and the water master has the right or gives permission to turn the water in or out according to the water flow of the creek. This is in accordance with the water laws as we understand them. If this is agreeable with all concerned, then we drop our protest.

Thank you,

Sincerely, E. Dale Jolley
Chairman of water District 74C
