Subject: Island Woods Transfer Applications

Mr. Nelson

In a letter dated March 18, 2008 you outlined some issues that need attention prior to processing applications for transfer 73763 (Benton), 73762 (Beede), and 73808 (Howell). Then in a letter dated April 24, 2008, IDWR gave a preliminary order to reject the applications due to lack of response from the applicants for the first letter.

Due to the complex nature of how to resolve some of the issues raised by IDWR, the applicants have asked ERO to provide assistance. At this time, the applicants cannot respond appropriately to your March 18, 2008 letter and would like to request an extension of time to respond. We are looking into the suggestions you made in your letter and also looking at ways of combining the three applications into one so as to avoid the obstacles you identified.

Can you postpone the "preliminary order" dated April 24, 2008 and allow time for a proper response to your issues? Is 90 days appropriate? Do you need some other form of request for more time?
