6. jstanton 6/20/2008 11:05:35 AM Special Administration Area Notes
Comment: Special Administration Areas : Big Wood River GWMA
Exempt: Y
Reason: Non-Consumptive Use
Doc Attached:
Explanation: Well for heat pump; water will be re-injected into aquifer close to pod
7. jstanton 6/20/2008 11:05:59 AM Additional Information Supporting Application
Comment: Residency affidavit for hydropower development: N/A
Additional hydropower project information: N/A
Additional fish propagation project information: N/A
Appropriation Rule 40.05.c information: N/A
Mitigation Plan or acceptance form: N/A
Evidence of Pre-1987 development: N/A
8. jstanton 6/20/2008 Comment/Analysis
Comment: This application proposes to divert water from a new well near the southwest corner of the property for use in a heating/cooling system for a new home near the center of the property. Water will be injected back into the aquifer through a separate well a couple hundred feet east of the point of diversion. The use should be fully non-consumptive, so should be exempt from the present moratoriums affecting permit approval. The permit should be approval with standard conditions. This use should not have any effect on surface rights in WD 37, so I am not requesting watermaster comments.

9. jstanton 6/20/2008 Legal Notice Remarks

Comment: This application proposes to divert groundwater for a open-loop heating/cooling system for a new home being built on this property. Water will be pumped from the aquifer, routed through the home, and injected back into the aquifer through a separate well about 200 feet east of the production well. The property is located about 4 miles south and 1 mile east of the Ketchum city center in the Gimlet Terrace Subdivision.
