SUBJECT: Status of Application

This application was received and reviewed and in light of it attempting to put water on lands never irrigated before it was decided that the application should be either denied or withdrawn. The applicant was advised and filed a water bank rental and lease that replaced this application. The rental and lease have been processed and approved. The applicant was requested to withdraw this application in writing but as of this date no such withdrawal has been received.

To close this matter most expeditiously this application should be considered **WITHDRAWN** based on the actions of the applicant to pursue the water bank lease and rental.
