Subject: Spring Canyon Ranch

Erick,
Thank you for pointing out to me that there was an objection to the recommended acreage for Spring Canyon Ranch. That had escaped my attention and that objection will put the water right permits on hold until it is resolved.

I spoke briefly with Shelley Keen after I got off the phone with you. The Department cannot set identical conditions on the two splits. 37-22250 and 37-22251 have different conditions and those differences must be maintained and they hinge on the 180-acre recommendation.

If 37-22251 is not used, the remaining water rights listed in condition # 5 of 37-22250 are limited to 180 acres.

I will make sure that my documentation and analysis to date for 37-22250 and 37-22251 are scanned and available on our public web page. But I will not take any further action until the court has made a decision on the objection.

Respectfully,
Michele Edl
