ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, DAVID R. TUTHILL, JR., of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 37-22250 with the following:

CONDITIONS OF APPROVAL

1. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
2. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
3. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
4. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
5. Rights 37-548, 37-549, 37-1222, 37-2142, 37-4440, and 37-22250 when combined shall not exceed the total combined diversion rate and number of acres decreed in the SRBA for rights 37-548, 37-549, 37-1222, 37-2142 and 37-4440. Currently rights 37-548, 37-549, 37-1222, 37-2142 and 37-4440 are recommended by the Department for decree with a combined total diversion rate of 9.81 cfs and a combined irrigation limit of 180 acres.
6. The volume of water diverted in connection with this right shall not exceed the amount needed to supplement the appurtenant surface water rights for the irrigation of 34 acres, up to a maximum of 119 AF of ground water.

Witness my hand this 18th day of June, 2008.

DAVID R. TUTHILL, JR.
Director
