

MEMORANDUM

Date: June 16, 2008
To: Water Right File 65-13809
From: medl
Re: ownership

6/5/08 I received a phone call from Scott Dawson this morning. He had the Departments request for an amendment to permit 65-13809 and did not know what action to take. He is the new owner of the place of use.

To help familiarize him with this water right, I directed him through a query on the Departments public web page I sent an email with a screen shot of the place-of-use shapes projected on 1992 imagery and a link to the change of ownership forms.

Mr. Dawson and I have had several followup conversations. An assignment of this permit is not possible. But Mr. Dawson was willing to sign the amendment and complete a change of ownership forms and send both in with the necessary fees so that the license can be put in his name.
