Re: Applications to Lease Portions of Water Right Nos. 37-692B and 37-465.

Dear Aaron:

Enclose for filing is an application to lease 0.51 cfs; 25.8 acres to the State of Idaho Water Supply Bank by the J. R. Simplot Company ("Simplot"). The quantity and place of use describe on the attached application are a portion of the quantity and place of the overlapping decreed water right nos. 37-692B and 37-465.

Also enclosed is an application to rent the above described water from the Water Supply Bank. This application has been signed by Thomas Peck, who rents land from Simplot. The season of use for this rental application begins May 1, 2008. However, no water has been diverted under this rental application as of the date of this letter. Thomas Peck would like to begin using water under this application beginning the week of May 12, 2008.

The rental amount shown is an estimate based on the maximum volume that could be diverted during the 2008 irrigation season. This amount will need adjustment to conform to the actual quantity used since the volume diverted is likely to be considerably less than the maximum shown.

Should you have any questions about the enclosed applications, please contact me. I can be reached by phone at 208-389-7359; or by email: vic.conrad@simplot.com.

Sincerely,

Vic Conrad
