Subject: Application for Transfer of a Water Right

Dear Mr. Lester,

Enclosed on behalf of Delmy and Sean Lynn is an application for transfer of a water right. The application proposes a new point of diversion and place of use to provide irrigation water for one acre near Nampa, Idaho. The Lynn's have agreed to purchase an 8-acre portion of water right 63-7194 (copy included as Attachment A). One acre is to be transferred now per the enclosed application, and the remaining seven will be transferred in the future. Upon completion of the purchase agreement, the Lynn's intend to place the remaining 7 acres in the State Water Supply Bank until such time as these acres are transferred. A map is included depicting the location of the water right acres purchased from Mellin (Attachment D). For the purposes of this transfer, please identify the eastern 1-acre strip as the portion being transferred. If you would like a digital shapefile of the transferred portion, please let me know. Attachments include:

- Attachment A: Contract for Sale of a Water Right (from Mellin to Lynn, 8 acres)
- Attachment B: Mellin's ownership documents
- Attachment C: Lynn's ownership documents
- Attachment D: Map of purchased portion of 63-7194

A check for \$100 is enclosed to the cover filing fees for the transfer application. Please contact Terry Scanlan or me with any questions or requests for additional information.

Sincerely,

Scott N. King, P.E.
