

State of Idaho
License and Certificate of Water Right

Water License No. 14955
Water District No. 91-C

Amount 10
Priority 8-7-20

THIS IS TO CERTIFY that Hecla Mining Co
of Wallace, made application for a permit to appropriate the
public waters of the State of Idaho, dated Aug. 7, 19 20; that Permit No. 14955
was issued under said application; that Certificate of Completion of works, with a carrying capacity of 10
second feet, was issued thereunder on Aug. 11, 19 22, showing that said works
were completed on the 12th day of Oct., 19 21; and that on the 12
day of Oct., 19 21,

Hecla Mining Co.

of Wallace, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Canyon Creek
river, a tributary of So. Ft. Coeur d'Alene for the purpose of Milling
under Use Permit No. 14955 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of
Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in
Volume 6 of Licenses, at page 2959, on the 11th day of August, 19 22;

The right hereby confirmed dates from August 7, 19 20;

The Point of Diversion is located bears N 21° 30' E 270 ft from Corner #8
in the Chief Lode Claim, Survey # 759, R., B. M.
County of Shoshone

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not
exceed 10 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			For milling purposes at a point 750 ft below point of Diversion		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of
use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 11th day of August, 19 22

W. E. SWENDSEN
Commissioner of Reclamation.

(Seal)

APPLICATION FOR PERMIT 94-2
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 21166
Permit No. 14955
District No. 91-C

1. Name of Applicant: **Hecla Mining Company.**

Postoffice address: **Wallace** County: **Shoshone** State: **Idaho.**

I. If applicant is a corporation, give:

(a) Date and place of incorporation: July 1898. Washington.

(b) Amount of capital stock: **\$1,000,000** shares **\$250,000.00**

(c) Amount paid in \$250,000.00

(d) Names and addresses of directors: James F. McCarthy, Wallace, Idaho; W. J. C. Wakefield, Spokane,

Wn.; H. C. Lambach, Spokane, Wn.; Carl Landsee, Milwaukee, Wis.; Frank J. Kipp,

II. The financial resources of the applicant are:

(b) Treasury stock: **None**

(d) Other resources: Mining property.

(a) Cash on hand: \$500,000.00

(c) Bonds to be issued: None

Milwaukee, Wis.;

Mrs. Sarah E. Smith,

Chicago, Ill.; E.

J. Nolan, Los Angeles,

Cal.

2. Quantity of water claimed: ten (10) cubic feet per second.

3. Source of water supply: **Canyon Creek** which is a tributary of **South Fork Coeur d'Alene River.**

4. Location of point of diversion: Bears N.21° 30' E.270.00/ feet distant from the feet from corner #8 Chief Lode Claim Survey #759

corner of Section _____, T. _____, R. _____, B. M., and is in the

of Section _____, T. _____, R. _____, B. M., County of **Shoshone**.

5. Water is to be used for: **Milling.**

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: At concentrator, about 750' below Point of Diversion and 170' above corner of Section Pt. of Return.

T. _____, R. _____, B. M., in the _____ of Section _____, T. _____, R. _____, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Canyon Creek at a point bearing / feet
615.00 feet from Corner #8 Chief Lode Claim Survey #759
distant from the corner of Section . T. . R. . B. M., in the

of Section . T. . R. . B. M.

7. Estimated cost of works: \$7000.00

Concrete Dam, Flume to settling Tank, Pump thru pipe line to Flume and Penstock
8. Kind of works: Pipe thru Mill. Flume from mill to point of return in Canyon Creek.

9. Height of dam 9 feet; length of dam at top 60 feet; length of dam at bottom 60 feet; material used in dam Concrete.

10. Size of headgate: Width **3** feet; height **2** feet.

11. Ditch: **Flume** Width at bottom 1 11/12 feet; width at water line 1 11/12 feet; depth of water 1

Diameter of pipe $4\frac{1}{2}$ " inches; length of conduit 600/5280 miles.

Average grade per mile	17	feet.
------------------------	----	-------

12. The time required for the completion of such work is **one** years.

13. The time required for the complete application of the water to the proposed use is **none** additional years.

14. The land to be irrigated is described in the following tabulation: See Remarks.

15. (a) Is reservoir to be used? **No.** If so, fill in (b) and (c) below.
 (b) Name of reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Hecle Mining Co. Applicant.

By James F. McCarthy. Agent.

Commissioner of Reclamation.

Date of first receipt at office of ~~State Engineer~~ 9 A. M. Aug. 7, 1920.

Returned to applicant for correction Aug. 9, 1920.

Corrected application received Sept. 20, 1920.

COMMISSIONER OF RECLAMATION
APPROVAL OF STATE ENGINEER

The number of this permit is 14955

Recorded in Book **53** Page **14955** Approved **October 12, 1920.**

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before **December 11, 1920** and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before April 12, 1921.

The whole of said work to be completed on or before **October 12, 1921.**

Beneficial use of water appropriated in accordance herewith, to be made on or before **October 12, 1921.**

Witness my hand this 12th day of October, 1920.

W. G. Swendsen,
~~State Engineer.~~
Commissioner of Reclamation

Proof of Completion of works made Oct. 12, 1921 Certificate issued August 11, 1922 Permit No 14955 CERTIFICATE OF COMPLETION OF WORKS To All Whom It May Concern: This is to certify that Hecla Mining Co. of Wallace, County of Shoshone, and State of Idaho, the holder of Permit No. 14955, issued upon Application No. 21166 bearing date of priority of August 7, 1920, authorizing the diversion of 10 second feet of the waters of Canyon Creek, County of Shoshone, State of Idaho, for Milling purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 10 second feet of the waters of Canyon Creek that the point of diversion of said waters bears N.21° 30' E 270 ft from corner #3 Chief Lode Claim Survey #759 and that the place of use of said waters are described as follows, to-wit: at the concentrator 750 ft. below point of diversion. Witness my hand this 11th day of August, A.D. 1922. W. G. SWENDSEN Commissioner of Reclamation License issued for <u>10</u> second feet <i>Page 2959</i>																			

REPORT OF ENGINEER

This proof is for Comp. Works & Ben. Use WaterIn Water District No. 910

1. State name of applicant and number of permit: Hecla Mining Co. - Permit 14955
2. State source of water supply: Canyon Creek
3. Location of point of diversion: N. 21°30' E., 270' from Cor. #8, Chief Lode Claim Survey,
No. 759.
4. Describe works as they exist, giving dimensions and capacities of same:

820 feet flume 2 feet wide, 3 feet deep
380 feet PIPE LINE

Capacity 24 Cubic feet per Sec.

5. State whether or not water has been turned into works of diversion: Yes
6. ~~Give exact location of lands to be irrigated.~~ If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): At Gem, Idaho.

Milling purposes - At low water

7. Submit map on enclosed plat, showing location and details of above description.
8. How many parties conduct water in this system? one
9. Give names and amount of each right: Hecla Mining Co.
10. What large stream would the water here appropriated finally reach? Canyon Creek
11. Describe the various tributaries en route, from point of diversion to the principal drainage stream:

Remarks:

This examination was made on the 22 day of July 1922

(Signed)

Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

(This report must be sworn to when not made by an attache of the office.)

STATE OF IDAHO,
County of Shoshone } ss.
M. O. 79 1m
being first duly sworn, deposes and says that the statements contained in the within report are correct to the best of his knowledge and belief.

Subscribed and sworn to before me this 29th day of July 1922.

My commission expires February 8th, 1923.

PERMIT NO. 14955

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L.E. Hanley, 41 years, Wallace, Idaho, Secretary Hecla Mining Co., P.O. Gyde-Taylor Building, Wallace, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Hecla Mining Co., Spokane, Wash., Secretary, officer having power under company's by-laws.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 14955; date permit, Oct. 12, 1920; 10 cubic feet per second; Canyon Creek, tributary So. Fork Coeur d'Alene, River; bears N. 21° 30' E 270 ft. from Cor. #8, Chief lode claim, Sur. 759, Shoshone Co., Idaho.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Milling purposes

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Yes, about Sept. 1, 1920, to full extent of 10 cubic feet per second.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Yes

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. _____

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Concrete dam-flume to settling tank- pump thru pipe line to flume and Penstock- pipe thru mill - flume from mill to point of return in Canyon Creek; dam, heighth, 9 ft., length at top and bottom 60 ft., concrete; headgate, width 3 ft., height 2 ft.; flume, width 1 11/12 ft. depth water 1 ft. diameter pipe, 4"; length conduit, 600/5280; average grade per mile, 17 ft.

Cost of works, \$2400.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

PERMIT NO. 14955

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Charles H. Foreman, 34 years, Burke, Idaho, Mining Engineer,
P.O. Burke, Idaho.

Ques. 2. Are you acquainted with Hecla Mining Company, the
holder of Permit No. 14955, authorizing the diversion of 10 cubic second-feet of the waters of
Canyon Creek, at Gem, Idaho
for milling purposes? How long have you known him, and where does he reside?

Ans. Yes, corporation organized for past twenty years, P.O. Hecla Min.
Co., Gyde-Taylor Bldg., Wallace, Idaho.

Ques. 3. Have you read or heard read said Permit No. 14955, and are you familiar with its
terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated
under said permit? If so, describe same, state its character, and give your estimate of the amount of water
required for its profitable cultivation.

Ans. -----

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire
amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Concrete dam - flume to settling tank - pump thru pipe line to flume
Ans. and penstock - pipe thru mill - flume from mill to point of
return in Canyon Creek; height of dam, 9 ft., length at top and bottom,
60 ft., concrete dam, size headgate, 3 ft. wide, 2 ft. high; width flume,
1 11/12 ft. depth water 1 ft.; diameter pipe 4", length conduit,
600/5280 miles; average grade per mile, 17 ft.

Estimate of capacity, 10 cubic feet per second.

(Sign here.) *Charles H. Foreman*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that
I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn
to before me, at my office in Wallace, County
of Shoshone, State of Idaho, on this 12th day of

14955

PERMIT NO. 14955

Proof of Application of Water to Beneficial Use**Deposition of Holder**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L.E. Hanley, 41 years, Wallace, Idaho, Secretary Hecla Mining Co., P.O. Gyde-Taylor Bldg., Wallace, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Hecla Mining Company, Spokane, Wash., James F. McCarthy, statutory agent, Wallace, Idaho, Secretary, officer having power under company's by-laws.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 14955, date of permit Oct. 12, 1920;
date of priority, Aug. 7, 1920

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Canyon Creek, tributary So. Fork, Coeur d'Alene River; bears N. 21° 30' E. 270 ft. from Cor. #8, Chief lode claim, Sur. 759, Shoshone Co. Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Concrete dam- flume to settling tank - pump thru pipe line to flume and penstock - pipe thru mill - flume from mill to point of return in Canyon Creek; Dam Height, 9 ft., length at top and bottom, 60 ft., concrete; size headgate 3 ft wide, 2 ft. high; flume, width 1 11/12 ft. depth water 1 ft., diameter pipe 4"; length conduit, 600/5280 miles; average grade per mile, 17 ft.; capable of conveying 10 cubic feet per second.

Ques. 6. State for what purpost water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivate or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Milling purposes, in Hecla Mining Company's concentrator, at Gem, Idaho.

Ques. 7. If for other than for irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. Actually used in mill for concentrating purposes.

Ques. 8. What is the mininum amount of water required for the specified above?

Ans. 10 subic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

14955

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water diverted under this permit was first used by holder of permit about Sept. 1, 1920, and used during the months of September and October of 1920, to the full extent authorized under the permit of 10 cubic feet per second for the purposes mentioned in the permit, to wit, for milling purposes in the concentrator of the holder of the permit at Gem, Idaho. The water under this permit is usually used in low water season as a reserve.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and right claimed thereunder.

Ans. None

(Sign)

L. C. Hawley

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Wallace County of Shoshone State of Idaho, on this 12th day of October A. D. 1921.

Permit No. 14955....

Proof of Application of Water to Beneficial Use**DEPOSITION OF WITNESS**

Ques. 1. State your name, age, residence, occupation and postoffice address,

Ans. Charles H. Foreman, 34 years, Burke, Idaho, Mining Engineer,
P.O. Burke, Idaho.

Ques. 2. Are you acquainted with Hecla Mining Company, the holder of Permit No. 14955? How long have you known him and where does he reside?

Ans. Yes. Corporation organized for more than twenty years.

P.O. Address Hecla Min. Co., Gyde-Taylor Bldg., Wallace, Idaho.

Ques. 3. Have you read or heard read said Permit No. 14955, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply,¹ place of diversion,² and describe works for conveying water from point of diversion to place of use.³

Ans. (1) Canyon Creek, tributary So. Fork Coeur d'Alene River;

(2) Bears N. 21° 30' E. 270 ft. from Cor. #8, Chief lode claim, Sur. 759; Shoshone County, Idaho.

(3) Concrete dam - flume to settling tank - pump thru pipe line to flume and penstock - pipe thru mill - flume from mill to point of return in Canyon Creek; height dam, 9 ft., length at top and bottom, 60 ft., material concrete; size headgate, 3 ft. wide 2 ft. high, flume 1 11/12 ft. deep, depth water, 1 ft., pipe 4" length conduit 600/5280 miles.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 10 cubic feet per second; have seen that much being conveyed

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Milling purposes; Hecla Mining Company's concentrator, at Gem, Idaho.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Actually used in mill for concentrating purposes; all water diverted is being used.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ----

14955

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Several times during summer & fall 1920 have personally seen the water being diverted and used for purposes herein mentioned to extent of 10 cubic feet per second.

(Sign) Charles H. Forman

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Wallace, County of Shoshone, State of Idaho, on this 12th day of October A.
