Re: Water Right Application No. 75-14466 (Beyeler)

Dear Lyle,

Idaho Department of Fish and Game staff has reviewed the above water right application from Mr. Kerry Beyeler to withdraw 0.03 cfs of surface water from Lake Creek below Williams Lake. Mr. Beyeler proposes to irrigate up to 1.2 acres with the water. Lake Creek has multiple fish migration barriers and it is likely that Mr. Beyeler's proposal will have little impact on aquatic resources in the stream. We do not have significant concerns regarding this application.

We appreciate the opportunity to review this application and provide comments.

Sincerely,

A handwritten signature in black ink that reads "James R. Lukens".

James R. Lukens
Regional Supervisor
