Re: Transfer Evaluation

The purpose of this transfer is to allow 4.5 CFS to be passed to the Lemhi River and pumped back to the existing pivot and a new pivot. This will help provide passage flows for anadromous fish to Big Timber Creek. Transfer 74741 will consolidate acreage under water rights 74-38 and 74-996 in order to prevent enlargement.

Authority to File:

Karl Tyler is the president of Leadore Land Partners, an Idaho Limited Partnership which is the owner of the water rights.

Water Right Validity:

These water rights are currently recommended in the SRBA

Injury to Other Water Rights:

The transferred water rights are contained within water district 74W. Watermaster will comment. Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
