RE: Jon & Wei Christianson (Application for Permit No. 71-7170)

Dear Corey:

My clients and I are continuing to work with the U.S. Forest Service regarding resolution of the right-of-way for the above-numbered application. As recently as May 30, I received an email from Sara Baldwin regarding some possible changes to our current water diversions that might enable the Forest Service to support our pending application.

On behalf of the Christiansons, I would request an additional six (6) months in which to continue to pursue the right-of-way for this application. The U.S. Forest Service obviously moves with a measured deliberateness in making any of the types of decisions we are contemplating relative to the pending application. We will continue to diligently pursue this matter in hopes that we can finally get to a point when the application could be approved for development.

Thank you for your consideration.

Yours truly,

GARY D. SLETTE
