Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Temple:

The Idaho Department of Water Resources is returning your application for additional information and clarification.

First, the application should be filled out in ink instead of pencil. I have attached another application form for your convenience.

Second, the map submitted shows a "Parcel 1" and nothing else. You intend to irrigate 5 acres according to the application, parcel 1 contains only 1.76 acres. I have included an aerial photograph of the area and request you outline all the area intended to be irrigated on the areal photo and return it to me. Once the location of the irrigated land is complete, please indicate the amount of acreage, as per section quarter quarter, in **Item #9** of the new application. For example, 1.7 acres in the NESW, 2.8 acres in the SENW and 0.5 acres in the NENW of Government Lot 6.

Please submit the requested information within the next 30 days so as not to delay processing. If you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
