Subject: Request for Extension of Time

Dear Steve,

Please find enclosed a Request for Extension of Time in which to submit proof of beneficial use for Permit 63-32003. Also enclosed is a check for \$50 to cover the processing fee for the extension.

Construction of the water system has taken longer than expected because of changes to the original well and water system designs (e.g., water system will be pressurized by well pumps instead of the planned storage and booster pumps). A revised engineering report has been submitted to DEQ for approval. We are requesting a revised proof-due date of December 31, 2007.

In advance, thank you for your efforts. Please call me if you have any questions.

Sincerely,

Christian R. Petrich, Ph.D., P.E., P.G.
Principal Engineer/Hydrologist

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$60.00 to be included with this form when filed with IDWR.

Permit No. 63-32003Name(s) of Permit Holder: Marlin Land Owners LLCAddress: 984 W Corporate Lane # 201 City Nampa State ID Zip 83651Telephone No. 208-466-2500 Date Proof is Due: June 1, 2007

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Two public water system wells have been drilled, constructed; and tested; revised plans for
distribution system have been completed and submitted to DEQ. Subdivision roads have been
constructed. Some lots have been sold, homes on two lots are under construction

Costing \$ 307,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Construction of distribution system has taken longer than expected because of changes to the
original well and water system designs (e.g., water system will be pressurized by well pumps
instead of the planned storage and booster pumps). A revised engineering report has been
submitted to DEQ for approval.

Permit holder(s) request an extension to December 31, 20 2007
