RE: Well Site Approval - Worley Well Site # 3

Dear Mr. Bloomsberg:

This letter is to confirm that the Division of Environmental Quality (DEQ) has inspected and approved the proposed well site for the City of Worley, well site #3. Please observe the following setbacks and restrictions. The well must be located in excess of:

- 50 feet from a sewer line,
- 100 feet from all septic tanks,
- 100 feet from all individual home septic tanks,
- 100 feet from all individual home seepage pits,
- 100 feet from all privies,
- 50 feet from all livestock,
- 50 feet from canals, streams, rivers, ditches, lakes, and ponds.
- 50 feet from all tanks used to store non-potable substances.

Since the City of Worley owns the public park where the well will be located, there should be no problem in controlling potential points of contamination within a 100' radius of the well. To ensure that the well is located in excess of 50' from the sewer lines in the roadways you may wish to locate the well closer to the center of the park.

The following tests need to be run prior to usage:

- Phase II & V inorganic chemical analysis (also include nitrate and nitrite),
- Corrosivity,
- Phase II & V volatile organic compounds,
- Phase II & V synthetic organic compounds,
- Quarterly radiological contaminants for one year.

If you have any questions or comments on this matter please feel free to contact me at the DEQ in Coeur d'Alene. We are located at 2110 Ironwood Parkway, phone, 208 769-1422.

Sincerely,

Anthony P. Davis
