CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Examination For Beneficial Use Field Report Check List Rule 5

✓ 5,1,2. Permitted uses partially developed by the permit holder shall be described. ~~Permitted uses~~ which were not developed by the permit holder shall be noted. Uses determined to exist which are not authorized by the permit being examined shall also be noted.

✓ 5,1,3. A concise description of the diversion works and a general description of the distribution works shall be given. This description must trace the water from the point of diversion to and including the place of use and the return to a public water source, if any. The make, capacity, serial number and model number of all pumps, boosters or measuring devices associated with the point of diversion at the source of the water supply shall be described on the field report.

✓ 5,1,4. Any interconnection of the water use being examined with other water rights or with other conveyance systems shall be described on the field report. Any reservoir, diversion dam, shall be included. This description shall be in the form of a concise word picture of the storage of water, if stored, its release, redirection and conveyance to the place of use. A schematic diagram of the project works shall also be provided in the field report.

✓ 5,1,5. If water is returned to a public water source after use, a legal description of the point where the water is returned and source to which discharge is made shall be provided. Examples of uses which generally have an effluent discharge include fish propagation and power facilities. (MINING)

✓ 5,1,6. The method of compliance with each condition of approval of a permit shall be shown on the field report by the examiner.

✓ 5,1,7. If the water is used for irrigation, the boundaries of the various irrigated areas and the location of the project works providing water to each shall be platted on the proof maps and the full or partial acreage in each legal subdivision of 40 acres or government lot shall be shown.

✓ 5,1,8. Irrigated acreage shall be shown on the field report to the nearest whole acre in a legal subdivision except the acreage shall be shown to the nearest one-tenth acre for permits covering land of five acres or less.

✓ 5,1,9. Where a permit has been developed as separate distribution systems from more than one point of diversion, the separate areas irrigated from each point of diversion shall be shown on the proof maps as described hereinbefore and the legal subdivisions embracing the irrigated areas for each such respective point of diversion together with the total irrigated area shall be described.

✓ 5,1,10. The field examiner does not need to show total volume of water for municipal and fire protection uses on the field report unless the project works provide for storage of water.

✓ 5,1,11. The total number of holding/rearing ponds and the dimensions and volume of the ponds shall be shown on the field report for fish rearing or fish propagation use. The annual volume shall be calculated based on the changes of water per hour.

✓ 5,1,12. Information shall be submitted concerning the beneficial use that has been made of the water unless the purpose of use is for irrigation. For example, for stockwater use, the number and type of stock watered shall be provided. Similar indications of the extent of beneficial use shall be provided for all other non-irrigation uses.

✓ 5,1,13. Information on the period during each year that the water is used shall be described for each use.

✓ 5,1,14. For permits having more than one use, the diversion rate measured for each use shall be described.

✓ 5,1,15. The amount (rate and/or volume) of water shall be limited by the smaller of the permitted amount, the amount upon which the license examination fee is paid, the capacity of the diversion works or the amount beneficially used, including any statutory limitation of the duty of water.

✓ 5,1,16. Suggested amendments shall be noted on the field report when the place of use, point of diversion, period or nature of use is different from the approved permit or from previously approved amendments.

✓ 5,1,17. An aerial photo must accompany field reports involving ten (10) or more irrigated acres unless waived by the director. If existing photos are not available, the director will accept a USGS Quadrangle map at the largest scale available.

RODNEY L. DUTRO,	)	
	)	DECREE OF DISTRIBUTION
Deceased.	)	
-----	)	

The above entitled matter came on regularly for hearing this 18th day of April, 1984, pursuant to the petition of ELLA RAE DUTRO for decree under Idaho Code Section 15-3-1205. It appeared to the Court that notice had been given in the manner and for the time required by law, and that all things were done and proceedings taken as required by law, and the Court further finds as follows:

I.

That the petitioner, ELLA RAE DUTRO, is the surviving wife of RODNEY L. DUTRO, deceased.

II.

That the said RODNEY L. DUTRO, husband of petitioner, died on the 14th day of December, 1983, in St. Maries, Benewah County, Idaho and at the time of his death was a resident of the County of Benewah, State of Idaho.

III.

That petitioner and the said RODNEY L. DUTRO were wife and husband at the time of his death; that they were married in Gulf Port, Mississippi, on June 11, 1950, and

MAR 17 1988

were husband and wife continuously thereafter until the death of the said RODNEY L. DUTRO; and were residents of Benewah County, Idaho since April, 1982.

IV.

That during said marriage of petitioner and the said RODNEY L. DUTRO they acquired the following described real and personal property situate in Benewah County, State of Idaho, and particularly described as follows, to-wit:

Real Property:

The North Half of the Southeast Quarter of the Northwest Quarter (N1/2 SE1/4 NW1/4), and the West Half of the West Half of the Northeast Quarter of the Northwest Quarter (W1/2 W1/2 NE1/4 NW1/4), Section Thirteen (13), Township Forty-four (44) North, Range One (1) West, Boise Meridian, Benewah County, Idaho.

Personal Property:

Miscellaneous furniture and furnishings situate in the residence.

1974 Toyota Pickup Truck
