RE: claims to water rights Nos. 11-7340, 11-7343, 11-7339, 11-7374
Located in Sec. 36 T41E R9S, Sec. 31, 30 and 30 T42E R9S respectively 528

Dear Sir/Ma'am:

Enclosed, please find a copy of my map showing what I know to be the locations of the springs and the corresponding claim numbers, as marked in blue thereon. Would you please verify that these are the approximate locations and claim numbers of the springs.

Pete Lodder, a neighbor, has claim nos. 11-4334 and 11-4335. Are they located anywhere on my map; if so, would you please signify thereon and return it to me? Do you know the location of the stream for his one stock water claim is located?

If there are any corrections on my map would you so indicate? Could you kindly send me a good copy of your version of map for this area, showing the local spring locations?

Also, I have been told by Cindy Bird from the Soda Springs office that Utah Process Agency has relinquished the permit or claim on no. 11-7340. What is the reason for that; is it because of lack of beneficial proof of use? It was my understanding that we had assigned it over to Lynn Rasmussen when we sold the "Largelliere Ranch" in 2001.

As for the status of permit nos. 11-7343 and 11-7339, are we still in good standing? What is the assessment made by Cindy Bird? What about No. 11-7374 now claimed by Dr. Franson? Is there still a problem with my father Gayle Dean Hunt's application processes back in the 1980's? Have we and the Fransons resolved these issues with Cindy Bird? Is she satisfied yet with the improvements made by my father and by Dr. Franson on Permit nos. 11-7343, 11-7339 and 11-7374?

Please let me know as soon as possible. I will forward a copy of this letter to Cindy Bird, however, we need her official decision as on the record through your office or Boise or wherever

these things are finalized. Also, I prefer my questions about permit locations and maps to come from your office.

Thank you very much for your time and attention to this matter.
