Subject: RE: App For Permit 72-16707 Piva

Shelley - This permit is to irrigate dry land with a new well, so there are no overlapping rights. I will forward the file to Mary. Thanks.

Jim,

I read all the correspondence, added the water district number in Workflow, added the standard diversion rate/acre and volume/acre in Workflow, and added condition R63. Assuming there are no overlapping water rights, which I did not check, it is ready to advertise.

Shelley

Shelley – This app was given to Cherie last October for pre-advertising review, but no response has been received. Please check this out and see if we can proceed to advertising. This applicant is inquiring, as he hopes to proceed with development this spring. Agency & applicants comments have been received as required. Thanks.
