

MEMORANDUM

Date: May 15, 2008
To: Water Right File 63-31261
From: mweaver
Re: Licensing

I reviewed the BUFR and prepared the license for this file. I corresponded with Lori Graves on several occasions via letter, phone, email, and in person to establish flow rate of PI system and location of beneficial use. The final POU is different than BUFR but all changes were agreed upon by Lori.

The corners of the NENE, NWNE, SWNE, and SENW QQs or section 18, T6N, R3W are irrigated with BCID surface water rights from a storage pond located on the Hansen Ranch. The groundwater rights established under this license are supplemental to these surface water rights. Refer to the 63-31261 Map Exhibit in the file for depiction of overlap.

I ALSO UPDATED THE PERMIT TO REFLECT THE CHANGES REQUESTED
ON THE "APP. FOR AMENDMENT OF A PERMIT" FORM DATED 4-22-08.
SEE COMMENTS.
