RE: Reinstatement of Permit

On 10/17/2006, the Department received a Request for Extension of Time form from the applicant that indicated the work is complete on 64 acres. The applicant indicated most of the equipment for the other 34 acre field had been purchased.

On 6/4/2008, the Department received the applicant's Statement of Completion (proof) form. The following items were enclosed:

- A Well Driller's Report with a completion date of 11/28/2005
- An invoice from Irrigation and Company Inc. dated 6/12/2006 with nearly \$20,000 in irrigation equipment
- A second invoice from Irrigation and Company Inc. dated 11/01/2007 with over \$10,000 in irrigation equipment

The applicant explained that they go out of town for the winter and the post office failed to forward our proof due notice, therefore, they failed to respond and their permit lapsed.

Based on the information provided to us by the applicant, permit 15-7267 should be reinstated. However, during the authorized development period only 64 acres were irrigated, the other 34 acre field was not completed until the remaining equipment was purchased 11/01/2007. Proof was due 01/01/2008, so it is not possible for the applicant to have irrigated their field between 11/01/2007 and 01/01/2008.
