Subject: RE: PWS# for Rolling Meadows Ranch?

Hi Michele,
 I found nothing in our records to indicate that PWS # was ever issued. I'm sorry we couldn't be of more assistance. Thanks and have a great day!

Subject: PWS# for Rolling Meadows Ranch?

Ms. Nelsen,

As promised, here is an email so you will have my address.

I am doing the review for a water right application in the name of Kootenai Land and Trust. Tate Engineering has done some of the preliminary plans for the Rolling Meadows Ranch development and I am assuming that it is still one of your projects. This application is for municipal use. But the department can not proceed with the permitting process until we have additional information confirming that this developer or development qualifies as a municipal provider.

According to Idaho Code 42-202B

- (5) "Municipal provider" means:
- (a) A municipality that provides water for municipal purposes to its residents and other users within its service area;
 - (b) Any corporation or association holding a franchise to supply water for municipal purposes, or a political subdivision of the state of Idaho authorized to supply water for municipal purposes, and which does supply water, for municipal purposes to users within its service area; or
 - (c) A corporation or association which supplies water for municipal purposes through a water system regulated by the state of Idaho as a "public water supply" as described in section 39-103(12), Idaho Code.

No documents establishing the taxing authority for this development as a water and/or sewer district have been included in the permit file.

I checked IDEQ for a public water supply number assigned to either Kootenai Land and Trust, or to Rolling Meadows Ranch but found none issued to those names. Typically a developer pursues certification as a public water supply system. Documents showing that intent need to be forwarded to me for inclusion in the application file.

If this request would be better handled by a different party, I would appreciate it if you would forward this email to that person for me.

I will keep this file close at hand for the next few days in hopes of hearing back from you. Please call me if you have questions.

Respectfully,
 Michele Edl
