

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 65-23263

Priority: February 21, 2008

Maximum Diversion Rate: 1.00 CFS

This is to certify, that CITY OF NEW PLYMOUTH
PO BOX 158
NEW PLYMOUTH ID 83655

has applied for a permit to appropriate water from:

Source: GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
MUNICIPAL	01/01 to 12/31	1.00 CFS

LOCATION OF POINT(S) OF DIVERSION:

GROUND WATER SE1/4NE1/4 Sec. 8, Twp 07N, Rge 04W, B.M.

PAYETTE County

PLACE OF USE: see approval conditions

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **June 01, 2013**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
5. Place of use is within the service area of the City of New Plymouth municipal water supply system as provided for under Idaho Law.
6. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
7. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
8. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 65-23263

9. In connection with the proof of beneficial use submitted for this permit, the permit holder shall also submit a report showing the total annual volume, the maximum daily volume, and the maximum instantaneous rate of flow diverted from the point of diversion authorized for this permit during the development period. The report shall also show the maximum instantaneous rate of diversion either measured or reasonably estimated by a qualified professional engineer, geologist, or certified water rights examiner, for the entire City of New Plymouth municipal water system. The report shall also describe and explain how water diverted under this permit provides an additional increment of beneficial use of water for the City of New Plymouth municipal water system as opposed to an alternative point of diversion for prior water rights already held and used by the City of New Plymouth for its municipal water system.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 21st day of May, 2008.

for DAVID R. TUTHILL, JR., Director
