There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit No. 81-11894 Date Proof is Due: June 1, 2008

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

We drilled the well, installed two 3000 gallon cisterns and have pipes to six newly-built cabins (2008) and the restaurant. We have not yet been able to complete the domestic use or storage ponds. We are doing some irrigation including several hundred feet of drip irrigation lines.
Costing \$ 42,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The storage pond has not yet been built due to budget and time. We plan to start "Phase II" of building more cabins and/or a lodge building. We also have not complete irrigation lines but have installed drip irrigation to some locations. Budget & time have been major factors.

Permit holder(s) request an extension to 6/1/, 2013.
