RE: Notice of Change in Water Right Ownership for WR Nos. 36-2603C, 36-7757, 36-200,
36-2306D, 36-8414, 36-15378, 36-7130, 36-8573, 36-8094 and 36-15959
36-2603D

Dear Water Right Holders:

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

I was not able to complete the ownership change for Water Right No. 36-2603D as the place of use was not appurtenant to the property conveyed. I believe there is an error in the place of use on the partial decree issued by the SRBA Court. I contacted Trish Fawcett in the Southern Region office who verified the error. The Southern office is contacting the IDWR legal department to pursue the setting aside and amendment of the partial decree. The ownership change can be accomplished through this process.

While comparing the place of use of the water rights to the legal description on the deed I discovered two applications for permit, one in the name of Western Hydropower (36-8137) and one in the name of Pristine Springs (36-8669). Please submit an assignment of application for permit if you believe that these permits should now be in the name of the Idaho Water Resource Board. I have enclosed the Assignment of Application for Permit forms for your convenience.

You can reach me at 208-287-4952 if you have any questions.

Sincerely,

Emalee Rushing, Office Services Supervisor
