Water Appropriation Rules 40.05.c. through 40.05.g.

c. The following information shall be submitted for applications to appropriate unappropriated water...

Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:

- i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. [N/A](#)
- ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within a one-half mile radius of the proposed well. [Please see plat/GIS map submitted with Form 202, Application for Permit.](#)
- iii. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights. [Design is not yet completed, pending receipt of a permit for appropriation of groundwater in lieu of surface water.](#)

d. Information relative to sufficient of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows:

- i. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year. [The requirements are as outlined on Form 202, Application for Permit.](#)
- ii. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for groundwater sources, and information on other sources of supply that may be used to supplement the applied for water source. [The groundwater application replaces surface water withdrawal under license 03-7020.](#)

e. Information relative to good faith, delay, or speculative purposes of the application, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:

- i. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code. The lands were acquired via Declaration of Taking under power of Eminent Domain as follows. Tract 1328, Declaration of Taking filed 16 January 1973, with the U. S. District Court, Civil No. 3-73-2. Judgment on Declaration of Taking was recorded with Nez Perce County on 17 January 1973, as No. 365002. Tract 1334 and 1335, Declaration of Taking filed 18 December 1972, with the U. S. District Court, Civil No. 3-72-51. Judgment on Declaration of Taking was recorded with Nez Perce County on 20 December 1972, as No. 364395.
- ii. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials. Requirement is acknowledged.

f. Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows:

- i. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed. N/A
- ii. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications. The permit is being pursued in anticipation of budget submission in order to gain priority for funding the well project. Plans and specifications will be developed once funding is obtained for this work.

g. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows:

The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Environmental Quality, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the director. Letters were sent to Idaho Department of Fish and Game, and Idaho Department of Environmental Quality on 12 December 2007. Idaho Fish and Game responded by letter dated 21 December 2007, and Idaho Department of Environmental Quality responded 22 January 2008. Comments were addressed to the satisfaction of each agency and the Idaho Department of Water Resources. The tribes will be provided an opportunity to comment under Section 106 of the National Historic Preservation Act prior to the start of the project.
