Subject: RE: Application 63-32648

Dear Mr. Lester,

I am writing to inform you of my new address as listed below as it pertains to the new water right application I made, # 63-32648. The office personnel I talked with did not know how I should inform the IDWR of my new contact information.

Also, Is there a mechanism by which I could expedite the above application? This application is for a nonconsumptive use for a small hydropower system for our personal off grid and year round residence. I made the application approximately one year ago and had no idea of the backlog of applications your office had. I was hoping to begin construction in the next few months but am unable to do so until the application is processed.

Thank you for any assistance or advice you could offer.

Regards,

Rich

discussed with Appl. today -

- non cons. use so can process w/o delay
- if approved - div. works exempt from SCA but return flow not exempt "
- he asked if SCA staff can call him if needs to file Joint 404 Appl.
