Dear Sir:

I recently purchased property from Brent Christensen. The property is located near Grace, Idaho and the attached water rights were included with the purchase.

It has come to my attention that subsequent to the purchase the state has approved transfer of ownership to Brent Louder of some of the water rights I purchased. I received no notification of this nor is anyone I have talked to aware of any publication of notice of this action. It is my understanding that for numerous years the water has been utilized on my property in the production of crops. Mr. Louder's property is not now nor has it been productive farm land. Additionally Mr. Louder has no point of diversion or legal easement to a point of diversion to use irrigation water. In my deed there is no easement to a point of diversion.

In view of these factors I would request that ownership of these water rights be returned to me. If you need any additional information please contact me.

Sincerely,
