

MEMORANDUM

Date: April 11, 2008
To: Transfer 74533
From: Allen Merritt
Re: Recommendation

This application was processed in parallel with state office staff. The application has insignificant or no hydrologic impact to water rights in the area so the application was not advertised. The amount being moved is 0.026 cfs and the distance being moved is approximately 1600 feet from the original large irrigation well to an existing domestic well all within the same model cell. It is being approved in the region as drafted.
