Re: Notice of Change of Water Right Ownership
65-01219, 65-01220, 65-01257, 65-02497, 65-02838, 65-04217, 65-11415

Dear Sir or Madam:

I am enclosing with this letter a Notice of Change of Water Right Ownership with respect to the above water rights. I am also enclosing my firm check in the amount of \$175.00. Each change of ownership affects the whole amount of the right.

Attached to the Notice of Change are the instruments changing ownership of the land. I have not attached a plat of the property since there is no division of a water right and since all of the water rights have been recently decreed. Your form also states that an aerial photo should be provided with the irrigated acres outlined along with the points of diversion. Three of the water rights, 65-02497, 65-02838 and 65-11415 are the three irrigation water rights. When I go on your website, I find that the aerial photo under each water right is the same. I am enclosing that photo since you are apparently using it for all three of those irrigation rights.

Some explanation is in order regarding the other attachments to the Notice. Ownership under the SRBA decrees is all listed in the "Edwin Goslin Trust". From a technical standpoint, title to the land was held by the trust as to an undivided three-fourths interest and by Ida Goslin as to an undivided one-fourth interest. In the earlier Notice of Change of Water Right Ownership filed with your office May 24, 2001, there was an attempt to try to make that distinction. However, the later decrees did not detail it. What I have attached is a conveyance from Ida Goslin's estate to Margie E. Scofield and conveyances from the Edwin Goslin Trust to her and a transmutation of the property from her separate property to the community property of her and her husband, Clay Scofield. There

were errors in the preparation of the descriptions of the deeds placing the property in the Trust in 1996 which were attached to the earlier Notice of Change of Ownership. Those errors were discovered when we were probating Ida Goslin's estate and we eventually got confirmation from the court by an Amended Order Approving Distribution from the Goslin Trust to Ms. Scofield. We did not obtain that until February 22 of this year. Therefore, the last instrument in getting the title cleared up did not occur until then. For that reason, I am assuming that the filing fee will be \$25.00 per water right since the Notice of Change of Ownership is being submitted to you within 120 days after the Amended Order of the court, and, therefore, I conclude that the late filing fee of \$100.00 should not apply.

I believe the documents are in order and there should not be any difficulty in accomplishing the change of ownership. If, however, you have any questions, please give me a call.

Very truly yours,

WESTBERG, McCABE & COLLINS, CTD.
