Describe the reason for the proposed changes

This transfer moves additional 1973 water to our property, while companion transfer 72839 moves 1956 water to the Durfee property. This was our arrangement with Mr. Durfee when we bought his old dairy and the 40 west of it, and these transfers just legalize the arrangement. The transfer shrinks the place of use down to the remaining irrigated land under the existing pivot; 10.3 acres in the NE/NE Sec. 25 have been converted to dairy facilities and are no longer irrigated. Transfer also changes ownership to current business name from former business name without changing the actual owners of the property.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change

5. Total Amounts Transferred
