Re: Application for Permit and Transfer Valley Club Owners Assoc.

Dear Allen:

Enclosed is an application for water right permit and an application for water right transfer to effect additional pumping for irrigation for the Valley Club Owners Association in Blaine County.

The permit proposes additional ground water pumping with mitigation by infiltration of surface water rights from the Hiawatha Canal. The attached Narrative provides the concept for the proposal and all technical information and water right information which I believe is pertinent.

Since you are most familiar with the Hiawatha Canal system and the Valley Club Subdivision and golf course area, I am requesting that you evaluate the applications to expedite processing.

Please call if you require additional information for processing. The Valley Club Owners Association has optioned the water rights and have specific performance deadlines in order to comply with their agreement. As usual, time is critical.

Thanks for your help on this application.
